Thanks. That is a good point. I can pass it on to the Contracting Officer.

Cathy

Thanks Cathy.

I understand. However given the tone of Terratherms letter, and the apparent dispute over non payment which AF has been asked to intervene in to resolve, I think it would be prudent to get Terratherm to specify exactly what they are removing to avoid further dispute over property ownership before you let them back on the property to get their stuff. AF has been asked to mediate a divorce settlement :)

Carolyn

Carolyn-

I don't ever see any subcontract information and I don't think the contracting officer does either. Amec has been complying with the hold.

Thanks.

Cathy

Can you ask them to identify which equipment is theirs?

I do not have that information. The only communication I have seen from Terratherm is the Nov. 30th letter.

I have a preliminary list of equipment impacted by the hold developed by Amec in early July, but it is not all inclusive and has only limited notations on Amec vs. Terratherm.

Thanks.

Has Terratherm specified which equipment belongs to them?

Carolyn-

Thank you for letting me know about the Nov. 30th letter from Terratherm. The AF contracting officer sent me a copy, and contracting is reviewing the payment issues raised by Terratherm.

We request that the hold on ST012 SEE decommissioning issued to the AF by EPA and ADEQ be released so that excess equipment can be removed from the site by AF contractors and/or subcontractors. Thank you for your consideration.

Cathy
